

THE STUDENTS COMMISSION OF CANADA

Statement of Purpose:

The Students Commission of Canada (SCC) is a charitable organization that purposefully works with others to ensure that young people are valued, heard and their ideas for improving themselves, the lives of their peers and communities are put into action.

Desired outcome: A world where all young people transition positively into a successful adulthood.

We Turn Knowledge into Action and Action into Knowledge by:

- Supporting others to [share the story \(STS\)](#) of the work they do
- Deliberately catalyzing the knowledge generated by young people to support systems change
- Sustaining an evidence base through the [Centre of Excellence for Youth Engagement](#) of the impact of youth voice influencing decision-making

We Strengthen Others through Networking by:

- Amplifying the work of those organizations that support young people to be heard and valued
- Working with others to support young people to thrive
- Building capacity of others to practice and deliver meaningful youth engagement

We Walk-The-Talk by:

- Working in inter-generational partnerships to achieve our purpose and desired outcome
- Continuously Incubating and innovating so that we can generate sparks for positive change
- Working with vision and passion to integrate head, heart, feet and spirit in all that we do
-
